

**WORKERS' STATE OF HELASIA
ANNOUNCEMENT ON THE FORMATION OF THE
REPUBLIC OF NASSIVASSA**

14/10/2020

The workers' state of Helasia announces that on October 13th 2020, the Council of External Affairs held an Emergency Meeting to discuss the current situation on the former VISSR.

The Workers' State and the Party consider this as a partially negative development. Specifically it is concerning for us to see other states losing their revolutionary characteristics.

On the other hand, we do consider the Republic of Nassivassa as a legitimate transformation of the Vancouver Island Soviet Socialist Republic (VISSR), and we wish to continue our diplomatic relations, economic agreements and generally our co-operation through the organizations we participate in et.c.
